

SIYABONGA NTSHINGILA

Full-Stack Software Developer

Email: siyabonga.c.ntshingila@gmail.com — Phone: +27 63 151 0315 — Location: Johannesburg, Gauteng
GitHub: github.com/SiyabongaCyril — LinkedIn: linkedin.com/in/siya-ntshingila — Portfolio: siyantshingila.co.za

PROFESSIONAL SUMMARY

Full-Stack Software Developer experienced in building, maintaining, and scaling production web applications across the full software development lifecycle. Skilled in Laravel, PHP, MySQL, JavaScript, Tailwind CSS and React, with hands-on ownership of production deployments, RESTful API integrations, CI/CD workflows, debugging and cross-functional collaboration. Passionate about clean architecture, maintainable code, scalable systems, and solving business problems through thoughtful software engineering.

WORK EXPERIENCE

Software Developer

Siyakha Consulting

📅 Jan 2025 – Present 📍 Johannesburg, South Africa (Hybrid)

- Own end-to-end design, development, enhancement, deployment, and maintenance across three production platforms: [CEP](#), [yowza!](#), and [#SpazaConnect](#)
- Designed and implemented a multi-user opportunities and applications platform supporting role-based access, workflow management, and 260+ verified registrations within its first month.
- Designed reusable search infrastructure using Algolia across multiple platform entities, improving consistency and maintainability across products.
- Developed and integrated RESTful APIs and third-party services for authentication, messaging, search, and business workflow automation.
- Redesigned 60+ platform views under tight deadlines, improving UI consistency and user experience.
- Managed deployments across development, staging, and production environments, resolving production issues and maintaining CI/CD workflows in an Agile environment.
- Investigated and resolved staging and production issues through debugging, log analysis, and root-cause analysis.
- Designed and implemented an asynchronous job processing system using Laravel Queues and scheduled cron jobs, enabling reliable background task execution across staging and production environments.

Developer Intern

Siyakha Consulting

📅 May 2024 – Dec 2024 📍 Johannesburg, South Africa (Hybrid)

- Designed and delivered full-stack features from requirements gathering through implementation, deployment, production support, and iterative enhancements.
- Collaborated with senior developers to identify technical debt, communicate implementation trade-offs, and propose maintainable architectural improvements.
- Awarded Developer of the Year 2024 for technical contribution, ownership, and delivery.
- Promoted to full-time Software Developer within eight months based on ownership, technical contribution, and delivery.

TECHNICAL SKILLS

Backend

PHP, Laravel, REST APIs, MySQL, MariaDB, , MVC Architecture, Authentication & Authorisation, Queues & Scheduled Jobs

Frontend

React, JavaScript, TypeScript, Tailwind CSS, HTML, CSS, Inertia

DevOps & Tools

Git, GitHub, Github Actions, CI/CD, Production Deployments, Environment Management, Jira, Trello

Engineering

System Design, Debugging & Troubleshooting, Performance Optimisation, Clean Code, SOLID Principles, Technical Documentation

Other

WordPress, Figma, C++, Flutter/Dart

EDUCATION

BSc Electrical (Information) Engineering (Incomplete)

University of the Witwatersrand

📅 2017 – 2022 📍 Johannesburg

3 of 4 years completed. Relevant coursework: Software Engineering, Data Structures & Algorithms, Object-Oriented Programming, Data and Information Management, Signals & Systems, Control Systems.

Flutter Specialisation

Power Learn Project

📅 2023 📍 Online

Dart, database design, SQL. Built GovTrackSA mobile prototype using Flutter.

AWARDS

Developer of the Year 2024 —

Siyakha Consulting
Recognised for ownership, impact, and rapid promotion from intern to full-time developer within 8 months.

Flutter Specialisation Certificate

— Power Learn Project
